Target market	Description of target market The ING Personal Loan is for customers who are seeking a one off loan for specific consumer or personal purposes (e.g. to purchase a car, make home improvements, consolidate debt, pay for a holiday or an event) that is paid off over time with regular payments. It has been specifically designed for: ▪ Customers who require certainty around repayments by having a fixed interest rate. ▪ Customers who would like the flexibility to make extra repayments without charges and do not require the ability to redraw funds that have been repaid early. ▪ Customers who do not want to provide security for the loan. ▪ Customers who want to borrow an amount from \$5,000 to \$60,000. ▪ Customers who meet credit eligibility requirements. Description of product, including key attributes The ING Personal Loan has the following key attributes that will impact whether it is likely to be appropriate for the target market: ▪ Customer profile/Eligibility requirements: The ING Personal Loan is only available to individuals who: - are 18 years of age or older; - can evidence regular income e.g. payslips, PAYG, Superannuation statements; - are an Australian citizen, New Zealand citizen or Australian permanent resident; - have and maintain an Australian residential address; - meet the identification requirements; - have a good credit rating and meet ING's credit lending guidelines; and - are sole applicants (the loan is not available to joint applicants/borrowers). ▪ Term: Term of the loan must be at least 2 years and up to 7 years in duration, depending on the loan amount. ▪ Loan amounts: The product is for loan amounts from \$5,000 to \$60,000. ▪ Repayment profile: Customers make regular, scheduled fortnightly or monthly repayments to pay down the loan balance over the term. ▪ Interest rate: The product provides a fixed interest rate for the term of the loan. ▪ Fees: There are no fees for early repayment. Other fees and charges may apply. ▪ Security: There is no security required to be provided by the borrower, and guarantees are not accepted.

Target market (continued)	Description of likely objectives, financial situation and needs of customers in the target market ▪ Likely objectives: Customers who are seeking: - a one off loan for personal and household purposes; - certainty of fixed interest rate and fixed repayment amounts over the loan term, but who may be interested in making additional repayments, and/or paying down the loan early. ▪ Likely financial situation: Customers who earn a regular income, have a good credit rating and otherwise meet ING's credit lending guidelines. ▪ Likely needs: Customers who need an unsecured loan with the option of fortnightly or monthly repayment options, and loan amounts ranging from \$5,000 to \$60,000. Classes of consumers for whom the product is clearly unsuitable The ING Personal Loan would not suit customers who: - are self-employed or do not otherwise meet ING's credit lending guidelines; - require a loan for business purposes; - wish to take out a loan jointly with another person (as it is only available to individuals); - require a personal loan with a guarantor, noting that all obligations under this product are the responsibility of the sole applicant; - do not want to use online banking, noting that ING does not provide branch services; - require a legal representative or appointment of representative to act on their behalf who requires full online banking access and functionality (representatives can only access the account they are authorised for over the phone or in writing).
Alignment to target market	Alignment to target market ING considers that the ING Personal Loan is likely to be consistent with the likely objectives and needs of the class of customers in the target market. ING's application and assessment processes make it likely that the ING Personal Loan will reach consumers in the target market.

ING contact centre staff are trained to give information about the product but not advice around the suitability to a customer's individual situation; they are required to follow scripting when communicating with a customer about the product. Where the ING Personal Loan is distributed through an online channel (such as the ING website and ING internet banking app), the customer will be able to access information about the product attributes (such as fees, rates and credit limits) and eligibility criteria. ING Personal Loans can only be offered to customers after ING collects the required customer information and applies its credit lending guidelines.

Distribution conditions (continued)	Why the distribution conditions and restrictions will make it more likely that the customers who acquire the product are in the target market These distribution conditions and restrictions which are applied to distribution channels mean that: - the ING Personal Loan can only be offered directly through ING, and - direct communications regarding ING Personal Loans occur only through: - authorised ING staff who have received appropriate training (including ING contact centre staff who are required to follow scripting to ensure ING meets its regulatory obligations), or - the ING website, other ING controlled webpages, or the ING internet banking app. ING applies affordability and suitability checks on customers in accordance with credit lending guidelines to help ensure customers are not offered an unsuitable product, and that distribution is likely to be directed at consumers who fall within the target market.
